Chairman Bishop Makes Interesting Report on Harbor Improvenients-Other Items.

(Special to The Times-Dispatch.) PETISREBURG, VA., July 12.—The Petersburg Chamber of Commerce held its quarterly meeting this afternoon at 8 o'clock There were present Messrs, T. S. Beckwith, president; N. T. Patteson, secretary; H. P. Stratton, Charles T. Lassiter, 81th Bolling, Homer Alkinson, Edwin B. Whitmore, W. W. Gilliam, W. P. Arrington. Reports were read from several committee, and Chairman Lassiter, the Committee on Public Roads and

of the Committee on Public Roads and Bircets, after reading an interesting report, offered a resolution providing for the improvement of Washington Street, from Market Street to the corporate line, and the betterment of the Committee on Manufacturing, seconded the resolution, which was adopted.

RIVERS AND HARBORS.

Mr. Carter R. Bishop, chairman, of the Committee on Rivers and Harbors, this afternoon submitted the following report:

Mr. President, during the past quarter the commerce of our Port was, outward, \$101,507.00; inward, \$30-600.00 Total, \$131,507.00, 205 vessels, (625) tons.

quarter the commerce of our Port was, outward, \$10,507.00; inward, \$20,400.00. Total, \$131,507.00; 205 vessels, 40.625 tons.

There has been expended on river improvement during the year about \$15,000, mostly by the U. S. Government and the Petersburg Iron Works. But as this amount was expended under the old plan, which at best could give only temporary relief, no permanent good has resulted. It is true that the "General Abbotl," drawing thirteen feet, was taken to 86a through our river, but the channel is already-obstructed with bars over which we can scarcely get six feet at low water. We are 1974 to report, however, that the contract has been let for the installation of a new system of improvement, which will instread the permanency of any reasonable depth desired. There will be left from the government appropriation a considerable sum, which can be used for drodging, and thereby opening our port to any consting vessel that can cross Harrison Bar in James River, on which there is now eighteen feet of water. All lettes will be taken out of the river and harbor, greatly to the benefit of navigation.

The appropriation by the U. S. Government, \$200,000.00; contract, \$137,020.00.

This leaves \$47,503.00 for office, expenses and subsequent dredging.

To HAVE CELIGBRATION.

It is contemplated by the Chamber of Commerce, when the work on the diversion scheme, referred to in Chairman Bishop's report, is begun, to celebrate the occasion by an appropriate entertainment, to which will be invited prominent men from many parts of the country. Handsome festimonials will be presented to Mr. Bishop in token of the city's appreciation of his invaluable services in this work.

(Special to The Times-Dispatch.)

DANVILLE, VA., July 12.—The Danville Commercial Association is working upon a proposition to change the Greenshoro road so that it will be on the right hand of the Southern Railway between this city and Stokesland, a distance of five miles. At present there are six crossings in this distance. There will be interested in the movement with the association the city of Danville through its Council, the Dan River Power and Manufacturing Company, the House Rock Wheel Club, the members of which have to follow the road across two crossings to reach the club house, and the board of county supervisors. The Southern Railway is also interested in the project as the elimination of crossings will eliminate the danger to life over the section of the road under discussion. It is probable that the crossings will be limited to two, both of which will be cut under the bed of the railroad.

A Pitiful Case.

A Pittiful Case.

Editor of The Times-Dispatch:
In Sunday's Times-Dispatch appears an article under the above heading, and while it bears on its face a semblance of truth, it is in fact very misleading and calculated to make a false impression.

The article refers lost colored man living near Millboro Springs, and it is true that his mother died some years ago; that his wife died last apring, and that he now has typhold rever, but it is not true that he is fatally ill or has been. On the other hand, he has a mild attack, and is at this writing improving, and no doubt is entertained of his final recovery. Neither is it true that the attending physician says he is unable to hire any one to wait on him. The fact hesides, the patient does not need a special nurse, nor does hot meed a special nurse, nor does het want one. So far, with the help of his children he has been able to wait on himself and declines to have a nurse. Besides, the white people of the community visit him daily and provide him with an abundance of the best food. He is not neglected nor has he been. He is a worthy negro and no fears need be entertained of his being neglected.

This community has never been known to refuse to respond to the call of the sick or the needy. A. F. KERR, M. D. Millboro Springs, Va., July 11th.

committee from the convention to present to President Roosevelt in person a set of resolutions requesting him to investigate the labor troubles in Colorado.

The miners' convention wanted proof positive that the President had seen their resolutions. They, desired to learn whether' he was personally responsible for the lack of action upon previous resolutions. When the two delegates arrived in Oyster Bay they went direct to the executive offices and informed Secretary Loeb of their mission. They read the resolutions to him and told him of their instructions to deliver them into the hands of the President. He told them that President Roosevelt was too bigy arranging the details of the coming campaign to see them, but that if they would leave the resolutions with him they would be turned over to the President. Celegates called Mr. Loeb's attention to the president.

refused permission to see President Roose-vell, but told the delegates that if they wanted to do so they might hunt up Chairman Cortelyou at the Manhattan Hotel in New York and lay the resolutions before him.

The delegation, indignant at this treatment, left on the next train for Pittston, where they will report to the convention, which is still in session. Before leaving Mr. Burke said:

"We are not anarchists or fanatics. We came to the President with a message from 225,000 voters of Pennsylvania, and all we asked was the privilege of delivering the message and carrying out our instructions. We had no argument to make and told Secretary Loeb that we would not take up two minutes of the President's time. I consider our treatment an affront to the labor unions which sent us. You will see what will be the result of this incident on Pennsylvania's yote."

FOOD SUPPLY

Disastrous Results May Follow the Strike of the Meat Packers.

UNANIMITY WAS COMPLETE

More Than 40,000 Men Walked Out Yesterday-May Equal Coal Strike.

a stubborn disagreement, chiefly over wages for unskilled labor, one of the most extensive strikes in the history of the meat packing industry of the United States began to-day in Chicago, Kansas cities where large packing plants are located. If prolonged the strike is expected to cause widespread incomvenierines, possibly equaling the anthracite coal famine of two years ago.

The unanimity of the strike was complete. More than 40,000 employes are directly involved. In Chicago alone, 15,000 men are on strike.

The effect of the strike upon the food supply of the country and the prices of meats is being earnestly discussed, notwithstanding the announcement to night that the packing houses, contrary to somewhat general expectation, will continule operations without any interruption; employing whatever help may be obtained. How much aleviation in the furnishing of supplies to the public this course may afford—is a matter of wide variation of opinion. The packers declare that hundreds of men who could not be provided with places have been applying daily for work.

No Sign of Disorder.

No Sign of Disorder.

No Sign of Disorder.

The walk out have was started by the employes of the killing departments at the various packing houses. The killers were followed by the workers in other departments as fast as the current work left by the slaughterers could be cleaned up. Thus as the workers in each department disposed of their part of the work they threw off their aprns and departed. This consideration was shown the packers, the labor officials announced, because it was not the desire of the man is assues the employers any financial

We then by cordons of police, the striker tiled brickly out of the packing houses, carrying overalls, rubber boots and knives, cleavers and steels. The strikers were greeted by crowds of women and children, many of whom joined hands with the workmen on the outward march. Whatever the future may have in store in the way of riots, there was to-day absolutely no sign of disorder.

A picturesque scene was presented when the sausage factories and canneries were left by their forces. There are 1,000 girls employed in these two departments of the meat industry Clad in the variegated garb of ractory girls, this army of feminine atrikers tripped bilthely along the main thoroughfare of the stock feminine atrikers tripped bilthely along the main thoroughfare of the stock yards and were roundly cheered as they emerged through the gates and distributed themselvés in the crowd of men who had awaited their cmins.
"We're with you till the last," the girls exclaimed, smilling as they stood around and talked over the situation with their mise commanions in the movement.

exclaimed, smiling as they stood around and talked over the situation with their male companions in the movement.

President Michael Donnelly, of the Amalgamated Meat Cutters and Butcher Workmen of North America, the leader of the strikers, sald in a conversation this evening that he believed the sirikers would have little difficulty in withstanding a siege of more than a year with the sirike funds the unions have on hand.

In Chicago there are thirty-five local unions involved in the strike. President Donnelly and the presidents of the various locals assembled at the headquarters this morning thinking they might receive a notice of surrdent from the packers. But no word came. The packers took the position that they had replied declaively to the workers' demand and had nothing more to say except to explants.

The Two Sides.

Arthur Meeker, of Armour and Com-pany, said to-night:
"We consider the demand of the union for an advance in wages of unskilled labor entirely unwarranted by industrial conditions. We could not concede it and increased to submit the duestion to arbiproposed to submit the question to arbitration, which the union declined to do and called a strike to-day at all our plants. Every department is kept running, however. We have had applications from hundreds of unemployed men for positions at less wages than we have teen paying, and every day expect to increase our output."

President Michael Donnelly, the strike leader, said:

crease our output."

President Michael Donnelly, the strike leader, said:

"I wish to make it clear that we are not fighting for an increase of wages, but against a decrease. Our original demand was for a minimum of twenty cents an hour for laborers. This demand was amended after our second conference with the packers in June. We then agreed to a scale of 18 1-2 cents an hour, except in Omaha and Sloux City, where the scale is 18 cents. The packers, on the other hand, refused to pay more than 17 1-2 cents an hour, and declined to sign any agreements at all, except with a small proportion of the workmen. The question of wages to skilled men was not discussed. To unskilled workmen the average wage was 18 1-2 cents, but when we asked that this be minde the minimum wage, they cut it to 17 1-2 cents and 15 cents. Men could live on 15 cents if they got steady work, hit at some plants the men have been able to make just thirteen hours a week at this wage scale. They could not live on it. No one could."

IN MEMORIAM.

Oh! Thou God; Father of the faithful, unto Thy hands do we commit the spirit of Thy child, faithful wife, faithful mother, faithful filend.

Oh! Christ, the Redeemer, receive this Thy child, time believer, true Christian, without cant, without self-rightsomeses, without nagory, without hypocrisy; but whose, daily life showed her love, faith and charity; trusting always on Thy Word, "Whoseever believeth on Me shall be saved," Oh! Cruoffled One, receive her soni unto Thyself.

Oh! Holy Spirit, the Sanctified, in whose spirit she walked always, we surrender to These her pure soul in full assurance that her place in the Heavenly Home will be near the Great White Throne.
